

## Business Indicators ♦ May 2009

### Employment Income in British Columbia, 2005

#### Median Employment Income . . .

According to the 2006 Census, BC's median employment income<sup>1</sup> for those who worked full year, full time in 2005 was \$42,230, the sixth highest in the country, and above the national figure of \$41,401. The median is the point at which exactly half of the incomes are higher and the other half are lower.

The highest median employment incomes were seen in northern Canada, led by the Northwest Territories (\$60,119), followed by Nunavut (\$58,088) and the Yukon Territory (\$49,787). Employment incomes in Ontario (\$44,748) and Alberta (\$43,964) were also higher than in BC. The lowest median employment incomes were

in Prince Edward Island (\$34,140), New Brunswick (\$35,288) and Saskatchewan (\$35,948).

#### . . . by Class of Worker

Full year, full time paid workers in Canada earned more than twice as much in 2005 than those who were self-employed (\$42,485 versus \$20,792). However, there was much variation among the provinces and territories. The self-employed in BC had the third highest median employment income (\$23,266), after the Northwest Territories (\$37,135) and the Yukon Territory (\$30,464). Paid workers in Saskatchewan took home more than three times the earnings of their self-employed counterparts (\$38,687 compared to \$12,175).

Employment incomes in BC have not kept pace with the rest of the country. When compared to five years ago (2001 Census), median employment income in BC dropped 3.4% between 2000 and 2005 (in constant 2005 dollars), while for Canada as a whole it rose 2.4%. Quebec was the only other province to see a decline (-0.3%). When looking at full year, full time paid workers only, BC had by far the largest decline in median earnings (-2.9%). Along with BC, only the Yukon Territory (-0.6%) and Quebec (-0.4%) showed declines in the earnings of their paid workers. Nationally, the median earnings of paid workers rose 1.2% from five years ago.

<sup>1</sup> Employment income is comprised of wages & salaries, net income from a non-farm unincorporated business and/or professional practice, and/or net farm self-employment income. Taxable benefits, research grants and royalties are included.

The median earnings of the self-employed have been hit hard over the past five years, with a dramatic drop of 22.7% in full year, full time earnings between 2000 and 2005 (in constant 2005 dollars) for Canada as a whole. Only the Yukon Territory showed a positive change (+11.1%) in self-employment median earnings compared to five years ago. (There is no data on self-employment earnings for Nunavut.) In BC, the median earnings of the self-employed dropped 13.8% between 2000 and 2005. The Northwest Territories (-3.3%) and Alberta (-10.3%) had smaller declines than BC, but all the other provinces showed significant declines in self-employment median earnings from five years ago.

**2000-2005 % Change in Median Employment Income (in constant 2005 \$) for Full Year/Full Time Workers, BC and Canada**

Source: Statistics Canada, 2006 Census

### ... by Age and Work Activity

When looking at age groups and work activity, the highest median employment incomes were seen for those aged 45 to 54, although this age group lost 3.6% of their earnings between 2000 and 2005 (in constant 2005 dollars). The youngest workers (aged 15-19) made the most gains, increasing their median employment income by 19% between 2000 and 2005.

However, these gains were attributable to those working less than full year, full time (+10.9%). Young people who worked full year, full time lost 6.3% of their earnings, the biggest drop of all the age groups who worked full year, full time. Older workers (those aged 55 and over) who worked less than full year, full time

experienced the biggest declines in their median employment incomes over the last five years.

### ... by Gender

In 2005, the median employment income of women working full year, full time in BC was 76.4% of that of their male counterparts, a one percentage point improvement over 2000 (75.4%). Men lost 2.4% of their earnings between 2000 and 2005 (in constant 2005 dollars), while earnings for women dropped 1.1%.

**Median Employment Income for Men and Women Working Full Year/Full Time (constant 2005 \$), BC**

	2000	2005	2000-2005 % change
Men	\$49,239	\$48,070	-2.4
Women	\$37,129	\$36,739	-1.1
Women as a % of Men	75.4	76.4

### ... in BC's Urban Centres

Among BC's urban centres<sup>2</sup>, the Census Agglomeration (CA) of Kitimat had by far the highest median employment incomes in 2005 for both men (\$75,609) and women (\$42,066) who worked full year, full time. Male workers in Kitimat (CA) also saw their median employment income rise 5.9% between 2000 and 2005 (in 2005 constant dollars), the highest five-year increase among the urban centres. Other centres with high 2005 median employment incomes for men working full year, full time were the Census Agglomerations of Fort St. John (\$58,374), Prince George

<sup>2</sup> Urban centre geography can be found at:  
<http://www.statcan.gc.ca/pub/12-571-x/12-571-x2006001-eng.pdf>

(\$57,160) and Quesnel (\$56,585). Along with Kitimat (CA), the highest full year, full time earnings for women were seen in the Census Metropolitan Areas (CMA) of Victoria (\$38,711), and Vancouver (\$38,637), and the Census Agglomerations of Prince Rupert (\$36,692) and Prince George (\$36,686).

The lowest median employment earnings for full year, full time workers were seen in the Census Agglomerations of Penticton (\$36,369), Nanaimo (\$38,486) and Vernon (\$38,794) and the Census Metropolitan Area of Kelowna (\$38,832). Men experienced bigger decreases in median earnings between 2000 and 2005 than women, with only Fort St. John (CA) showing positive five-year gains for both men and women.

### ... by Employment Income Groups

More than one quarter (26%) of British Columbians had an employment income of less than \$10,000 in 2005, above the national figure of 24.9 per cent. Among the provinces, Alberta had the smallest percentage (22.6%) of workers in the under-\$10,000 category, but the Northwest Territories (18.9%) and the Yukon Territory (20%) both had lower percentages.

When looking at those in the under-\$20,000 employment income group, BC (41.8%) is one of 9 provinces/territories above the national figure (40.6%). More than half of the workers in Newfoundland & Labrador (52.7%) and Prince Edward Island (51.0%) took home less than \$20,000 in 2005. The Northwest Territories (30.3%), the Yukon Territory (34.3%) and the provinces of Alberta (37.5%) and Ontario (38.7%) had the smallest percentages of workers in this category.

Per cent of Workers with Employment Income under \$20,000 in 2005

Source: Statistics Canada, 2006 Census

At the other end of the scale, 7.3 per cent of BC's workers took home \$80,000 or more in earnings in 2005, less than the national figure of 7.9 per cent. The province of Alberta is again the standout, with 11.2 per cent of its workers in the \$80,000-plus category. High earners were also found in the Yukon Territory (8.6%) and the province of Ontario (9.5%), but Nunavut (15.2%) and the Northwest Territories (17.8%) were in a class by themselves.

**Table 1: Median<sup>1</sup> Employment Income in 2000 and 2005 (in constant 2005 dollars), by Class of Worker, for the Population 15 Years and Over who Worked Full Year/Full Time<sup>2</sup>, Canada and the Provinces and Territories (2006 Census)**

<sup>1</sup> The median income of recipients is that amount which divides their income size distribution into two halves, i.e., the incomes of one half of individuals are below the median, while those of the other half are above the median. This is different than the average (or arithmetic mean) which can be skewed by outliers (extremely high incomes).

<sup>2</sup> This analysis is based on full year, full time workers with employment income.

<sup>1</sup> Employment income is comprised of income received as wages and salaries, net income from a non-farm unincorporated business and/or professional practice, and/or net farm self-employment income.  
Other employment income such as taxable benefits, research grants and royalties are included.

# Business Indicators

Issue: 09-05

Release date: May 27, 2009

*Business Indicators* is published monthly by BC Stats. Electronic copies (PDF format) of *Business Indicators* and other statistical periodicals are available without charge from the BC Stats web site. The annual **print** subscription price is \$60.00 plus tax (\$3.00 GST).

Payment can be made by cheque or money order payable to Minister of Finance; VISA or Mastercard also accepted.

## How to reach us

FAX 250-387-0380

E-mail [BC.Stats@gov.bc.ca](mailto:BC.Stats@gov.bc.ca)

## Subscriptions & administrative inquiries

Kris Ovens, Publications Coordinator

Tel 250-387-0359

FAX 250-387-0380

E-mail [Kris.Ovens@gov.bc.ca](mailto:Kris.Ovens@gov.bc.ca)

**Mail** BC Stats

PO Box 9410, Stn Prov Govt

Victoria, BC V8W 9V1

## Location

1<sup>st</sup> Floor, 553 Superior Street

Victoria, BC

## Notes

Whenever possible we use **seasonally adjusted** data which removes normal seasonal variations to reveal the underlying trends in the data. Adjusted data are identified as **Seasonally Adjusted** or **SA**.

Some series subject to irregular fluctuations are presented on a **three month moving average** basis. All such series included in this report are also seasonally adjusted. Where space is limited these are tagged **3MMA SA**.

Series not labeled as seasonally adjusted are unadjusted or raw. Some unadjusted series in this report are explicitly identified as such.

## Contents

### This month's article

#### Employment Income in British Columbia, 2005

Written by Edelgard Panzenboeck

### Tables

- 1 Labour and Earnings
- 2 Employment by Industry-Goods
- 3 Employment by Industry-Services
- 4 Business and Consumer
- 5 Foreign Trade
- 6 Construction and Housing
- 7 Agriculture
- 8 Forestry
- 9 Mining and Energy
- 10 Manufacturing, Durables
- 11 Manufacturing, Non-Durables
- 12 Service Sector- Transportation
- 13 Service Sector- Tourism
- 14 Money & Markets

### Abbreviations

**3MMA SA**: three month moving average, seasonally adjusted

**Ave**: average

**bd ft**: board feet

**C6**: a group of six currencies including European Monetary Union Euro, British pound, French franc, German mark, Swiss franc, and Japanese yen

**Can**: Canada, Canadian

**GW.h.**: gigawatt hour = watt hour x 10<sup>9</sup>

**m3**: cubic metres

**mil**: million

**MLS**: Multiple Listing Service

**Moly**: molybdenum

**mth**: month (as in: previous mth)

**NAICS**: North American Industrial Classification System

**SA**: seasonally adjusted

**T.S.E.**: Toronto Stock Exchange

**US**: United States of America

**WSPF**: Western spruce-pine-fir
